

E-LANE

Advanced Electronic Exit Lane System

FSS Facility Services & Systems

Worldwide Headquarters

6100 Rockside Woods Blvd., Suite 355 Cleveland, OH 44131
P: 1877.634.0006 F: 216.328.0091 WS: www.fss.cc

SEE REVERSE SIDE

What does it do?

1 An ever vigilant exit lane system that removes human error.

2 Advanced digital recognition system provides immediate playback of any suspect breach situation.

3 Preboard security staffing is assisted by the availability of the exit lane guard for PBS assignment.

4 Costs and flight delays associated with an exit lane breach are eliminated.

5 Elimination of the exit lane guard allows E-LANE to pay for itself in less than one year of operation

6 E-LANE is FAA/TSA certified

7 Adaptable for easy distribution of information to airline and airport networks, creating a continuous security partnership.

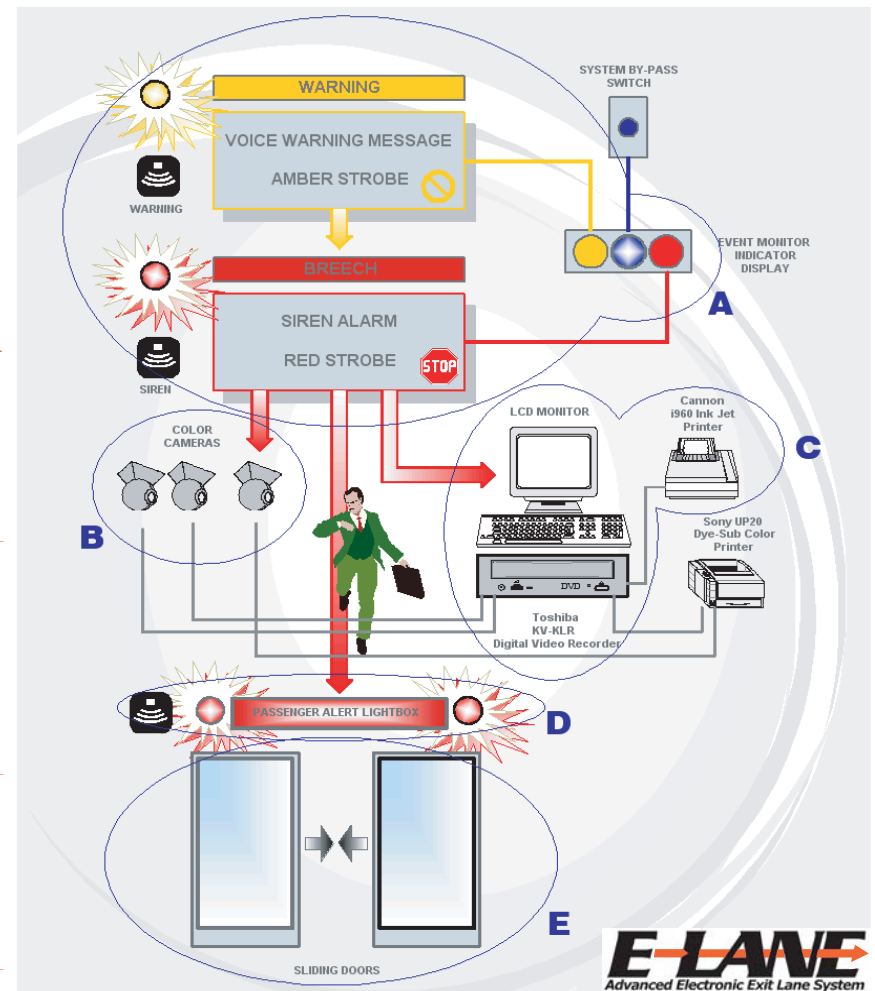

What do you get?

1 Visual, audio and physical deterrent to exit lane intrusion.

2 Sequential forms of alarm, when unauthorized entry is pursued.

3 Immediate evidence of intruder if warnings are not needed.

4 Detection and blockage of thrown objects.
